# Phey Penayi, Dental Technician | Core Dental

Canonical: https://www.coredental.com.au/our-team/phey-penayi/

## Details:

Phey Penayi is a Dental Technician in our Ceramists and Dental Technicians team at Core Dental. Dental technicians work behind the scenes, making dental appliances and restorations to prescriptions from our dentists and prosthetists. You will not usually book an appointment with Phey, but his work may form part of the care you receive at any of our nine Melbourne clinics.

## Who is Phey Penayi?

Phey is listed on our team page as a Dental Technician, within the Ceramists and Dental Technicians group. Our team page does not list further qualifications or a single clinic for Phey, so we keep this profile short and factual rather than adding details we cannot verify.

## What does a dental technician do?

A dental technician makes custom dental work in a laboratory setting. When your dentist decides you need something like a crown, a denture or another custom appliance, they record what is needed and send a written prescription. The technician then makes the item to match that prescription. Your dentist or prosthetist remains responsible for examining you, planning treatment, fitting the work and explaining aftercare.

## Which treatments may involve a dental technician?

Depending on your examination, custom laboratory work may be part of:

Dental crowns and dental bridges

Dentures and implant retained dentures

Veneers

Not everyone needs laboratory work. Your dentist will explain what is suitable, the alternatives, the risks and limits, and the cost before you decide.

## Where can you receive care that involves our technicians?

Our dentists and prosthetists provide restorative care at all nine Core Dental clinics, including Southbank , Epping , Carrum Downs and Bayside . Call 13 13 16 to find a suitable clinic and time.

## How do you check registration?

The practitioner who examines you, plans your treatment and fits your restoration is the person to check. You can look up dentists, hygienists, therapists and dental prosthetists on the AHPRA register at ahpra.gov.au, and you are welcome to ask our team who will be involved in making your restoration.

## What should you ask before laboratory-made treatment?

What is the restoration meant to achieve, and are there alternatives?

How many visits will it take?

What are the risks, limits and likely maintenance?

What is the full quote, and which payment options can I use?

We quote before treatment starts and offer interest-free payment plans, subject to eligibility and approval.

## Who works alongside Phey?

Phey is part of our technical team with colleagues such as Greg Karabasis and Agne Diliartaite , and our dental prosthetists Alessio Pecorella and Ahmed Saoud .

## Frequently asked questions

### *Is Phey Penayi a dentist?*

No. Phey is a Dental Technician. Dental technicians make custom restorations and appliances to a prescription, while our dentists examine you, plan your care and fit the finished work.

### *Can I book an appointment with Phey?*

Our appointments are booked with dentists, hygienists, therapists and specialists. If you need custom dental work, book with one of our dentists, who will arrange any laboratory work needed.

### *Which clinic does Phey work at?*

Our team page lists Phey with the Ceramists and Dental Technicians group and does not name a single clinic. For questions about your own treatment, call 13 13 16.

### *What is the difference between a dental technician and a dental prosthetist?*

A dental technician makes dental work to a prescription. A dental prosthetist is a registered practitioner who can work with patients directly, for example on dentures. Our prosthetists are listed on our team page.
